

BONBOO brings rich experience and independent military understanding to collaborative engagements with government and corporate organisations

Mission Statement

Bonboo's Integration Specialists harness diverse experience to elevate project support, drive strategic planning, and optimise functional performance.

From Operations to Strategy, we are committed to delivering unparalleled value with expertise and unwavering ethical standards.

Expertise

Bonboo Specialists possess vast and varied expertise which enables us to deliver exceptional results and products for our clients to maintain maximum operational effectiveness. This has built our reputation for quality, integrity and reliability.

Security and Confidentiality

Bonboo has a long history of working on highly sensitive projects in support of Government operations. Our employees are AGSVA cleared with access to information as required.

The Bonboo team includes members with significant experience in managing capabilities and materials within the Defence Security Principles Framework.

Organisational Culture

The Bonboo company culture promotes an internal sense of excellence, the highest ethical standards, a passion for the industry that we serve, and the projects derived from it.

Exercise Control and Planning

Our staff are Subject Matter Experts in Exercise Control and Planning (EXCON), training, coaching and controlling complex, multi-domain exercises in the live and simulated environments.

The Integration Specialists

Bonboo's Consultants are integration experts who maintain in-depth expertise in their respective domains.
