# Bonboo Integration Specialists

Bonboo are multi-domain experts possessing specialised military experience, advising in Program Management, ISR, Security, C2, Fires and Effects, and Operations.

Bonboo's Integration consultants will advise your organisation in the process of incorporating policy, technological systems and programs to ensure they work seamlessly together.

Our specialists will oversee the entire process from planning and configuration to execution, playing an active role in strategic planning to ensure optimal system integration to meet the needs of your organisation. Bonboo's Consultants not only possess integration knowledge, but also have in-depth expertise in their respective domains.

# **BONBOO – Your C2 and Information Analysis Partner**

Bonboo experts have proven experience integrating into JADC2 and ABMS systems. Together JADC2 and ABMS vision is a unified domain and control system that connects existing sensors and shooters, and distributes the available data to all domains (air, land, sea, cyber, and space).

## **Weapons and Tactics Experts**

Over the past decade Bonboo's Integration Consultants have represented the Commonwealth at various Operational and Tactical focused conferences including Tactical Analysis Teams (TATs) and Weapons and Tactics Conferences (WEPTACs) in the Air and Maritime domains.

## **Exercise Control (EXCON) and Opposition Forces (OPFOR)**

Bonboo provides Adversary Simulation in the Live and Synthetic Environments. Our OPFOR can replicate Friendly, Neutral or Enemy (REDFOR/Red Force) and can be designed and integrated into military or civilian scenarios using military Tactics, Techniques, and Procedures (TTPs), systems, equipment, and vehicles.

# Entertainment and Gaming Industry Consulting

Having worked in both Conventional and Special Forces, supporting Air, Land, Naval, Marine and Cyber Operations, Bonboo is uniquely placed to provide Specialist Consultative services to wider industry requirements, including the video game and entertainment industries. Bonboo employees have spent years developing complex simulations of realistic military operations.

Bonboo can provide tactical through to strategic modern military consulting services to the film, television, gaming, and technology industries.

Bonboo is owned and operated by military veterans with both tactical combat expertise and broad entertainment experience, we possess the ability close the divide between the military and entertainment industry.

We will ensure your project is realistic, complex and complimentary of military tactical procedures. Working together with the client, Bonboo will ensure the experience is correct from the modern warfighter's perspective.
